Dear Dr. Green:

Enclosed are two black/white and five color pictures of the Wasatch County Memorial Hill. The black/white pictures are copies of two faded prints that I found in a stack of pictures in the "Turner Collection" repository meaning a bottom drawer of an old bookcase. I have since found a third that was taken at the end of construction with scaffolding still in place but it doesn't reveal any more details, except the images of the workmen.

I took the colored pictures on my recent visit to Memorial Hill. It interests me that the colored pictures show a much more cared-for grounds! I also think that the changes made in the monument itself have greatly improved its appearance. I would like to know who designed and executed the changes --we need to give him credit for excellent work.

Respectfully,

*William R. Turner*
